

PDST Physics Workshops Spring 2012

Teachers of Physics are invited to Video Resource workshops with colleagues in their local Education Centre from 7.00 -9.00 pm. Participants will receive and explore two free comprehensive resources.

One includes over 50 videos of Science on Stage demonstrations. The other includes Physics Videos from teachers.

Participants will explore how these resources could be used to stimulate Physics learning and augment the enhancement of literacy and numeracy.

You are invited to bring along any ideas or resources that you have found to have worked for your class.

Workshops will go ahead when there are at least 10 applicants and the resource CDs will be given to participants only, so book early and don't miss out!

To Register: complete the attached form and return by email or fax to sciences@pdst.ie or fax to 061-585065
